(b) Feedstock flexibility program

(1) In general

(A) Purchases and sales

For each of the 2008 through 2025 crops, the Secretary shall purchase eligible commodities from eligible entities and sell such commodities to bioenergy producers for the purpose of producing bioenergy in a manner that ensures that section 7272 of this title is operated at no cost to the Federal Government by avoiding forfeitures to the Commodity Credit Corporation.

(B) Competitive procedures

In carrying out the purchases and sales required under subparagraph (A), the Secretary shall, to the maximum extent practicable, use competitive procedures, including the receiving, offering, and accepting of bids, when entering into contracts with eli-

gible entities and bioenergy producers, provided that such procedures are consistent with the purposes of subparagraph (A).

(C) Limitation

The purchase and sale of eligible commodities under subparagraph (A) shall only be made in crop years in which such purchases and sales are necessary to ensure that the program authorized under section 7272 of this title is operated at no cost to the Federal Government by avoiding forfeitures to the Commodity Credit Corporation.

(2) Notice

(A) In general

As soon as practicable after the date of enactment of the Food, Conservation, and Energy Act of 2008 and each September 1 thereafter through September 1, 2025, the Secretary shall provide notice to eligible entities and bioenergy producers of the quantity of eligible commodities that shall be made available for purchase and sale for the crop year following the date of the notice under this section.

Nothing in this section limits the use of other authorities for the disposition of an eligible commodity held in the inventory of the Commodity Credit Corporation for nonfood use or otherwise in a manner that does not increase the net quantity of sugar available for human consumption in the United States market, consistent with section 7272(f)(1) of this title.

(B) Emergency shortages

Notwithstanding subparagraph (A), if there is an emergency shortage of sugar for human consumption in the United States

market that is caused by a war, flood, hurricane, or other natural disaster, or other similar event, the Secretary may dispose of an eligible commodity that is owned and held in inventory by the Commodity Credit Corporation (accumulated pursuant to the program authorized under section 7272 of this title) through disposition as authorized under section 7272(f) of this title or through the use of any other authority of the Commodity Credit Corporation.

The Secretary may enter into contracts with bioenergy producers to sell eligible commodities to such producers prior in time to entering into contracts with eligible entities to purchase the eligible commodities to be used to satisfy the contracts entered into with the bioenergy producers.

(ii) Special transfer rule

If the Secretary makes a sale and purchase referred to in clause (i), the Secretary shall ensure that the bioenergy producer that purchased eligible commodities takes possession of such commodities within 30 calendar days of the date the Commodity Credit Corporation purchases the eligible commodities.

(5) Relation to other laws

If sugar that is subject to a marketing allotment under part VII of subtitle B of title III of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359aa et seq.) is the subject of a payment under this section, the sugar shall be considered marketed and shall count against a processor's allocation of an allotment under such part, as applicable.
